

MapInfo Professional Maintenance Release and Google™ Earth Utility now Available

### **Maintenance Release v8.0.1 (Build 33)**

A maintenance release is now available for all MI Pro 8.0 users. Users can either manually enter their serial number and version number

<http://community.mapinfo.com/downloads/updates/mipro/>

or use the Install or Help > Check for Update feature in MI Pro to access. This maintenance release may be applied to any commercially available version of MapInfo Professional or MapInfo Run Time v8.0.

For detailed information on the content of the maintenance release please see the release notes included in the download.

### **MapInfo enables Google™ Earth users to benefit from Location Intelligence**

MapInfo has made available a utility that will enable MapInfo Professional customers to share maps and analysis results with Google™ Earth users. The Google™ Earth utility is a free download and is available to users of MapInfo Professional version 8.0. To download the tool, users can use the Help > Check for Update menu command in MapInfo Professional or manually enter their serial number and version number.
